Understanding Your DNA

Diahan Southard

Saturday, Oct 14, 2017

Sessions start promptly at 9 AM

at

Shalom United Church of Christ

505 McMurray Street

Richland, WA

Also with Heritage Quest Bookstore

**Sponsored by the
Tri-City Genealogical Society**

Seminar Session Topics

Let Your DNA Tell Your Story

Your DNA, by its very nature, is one of a kind. There is no one else on the earth exactly like you. In this class, we will cover all three kinds of DNA test types and discover ways you can use this unique record to tell the story of your family history. We will strip down your DNA results into their essential parts, and learn together how to use this fascinating technology to tell an engaging story of your past, using tools you already have, so that even your most skeptical family member will want to hear more about your family history.

Five Tips to Make Sense of Your DNA Testing

So, you have had your autosomal DNA tested—now what?! Come learn in 45 minutes what would take you hours to read about online, and leave armed with enough information to start making your DNA work for you.

Organizing Your Genetic Genealogy

Most individuals have hundreds of genetic cousins. Come learn a few methods you can start using today to help you organize your genetic genealogy research.

Try Your Hand at Genetic Genealogy

This is an interactive activity to help you put into practice the things that you have learned. Workbook included.
